Inserir um ficheiro com uma apresentação e criar ligação

- Se tiver mais de 1 MB não pode ser inserido numa nova página através de plugin. O melhor nestes casos é gravar a apresentação em pdf e fazer o upload do ficheiro para o wiki.
- De seguida, para que seja acessível a partir de outra página, voltar a criar um link na Frontpage como se fez com a Página calendário, indicando o destino da ligação no Menú lateral, em “Insert links” /”Images and Files” ou a partir do ícone da barra de ferramentas do editor .
